SAFE PATIENT HANDLING PROGRAM

We hope this year's radiothon is a celebration of our dedicated frontline workers who have worked so tirelessly through the pandemic. But ultimately, this is more than a celebration, it's a fundraiser. This year we are raising money for Safe Patient Handling equipment such as total lifts, slings, quick moves and disposable hovermatts. Study after study has shown patients feel safer and more secure with the use of these devices and happier with the care they receive while at the hospital. In addition, these devices also protect the safety of Massena Hospital employees. Each year, a high percentage of at-work injury to hospital employees comes from the movement and transfer of patients. Anything we can do to help protect the health and safety of both our patients and hospital staff is certainly worth our effort.
